**Verse 1:** Are you sad and lonely?  
Come along – we'll beat the street today  
Your mother warned you of me  
It doesn't matter what she says

Don't worry I am a bad ass boy -  
Hope that you aren't a saint either

**Verse 2:** My medicine is empty  
Hey doctor does it have to be?  
Please, I'm under current  
A cup of gasoline suffices me

Baby, can you smell the tar?  
So put you virgin lap into my car

You don't need this ones with me  
Don't worry sweet hottie I have the sound  
The dirty road sound with me  
Stabis down baby

My hater blockers are the shit  
I have one on chopin  
Climb just from my pit

**Chorus:** Baby, can you smell the tar?  
So put you virgin lap into my car

Hey you sweet hottie put your stabis down  
You don't need this ones with me
